use in the app. After that you can enter with that information and every time you log in you will be asked. Those who couldn't get in check if that was the problem. The theme is that many believe that the let in (which is already for registered) is where they have to subways for the first time and is not. iOS is already... As we already know them, they're going to start asking when the iOS App is. That is already on January 15 (until I did post) and you can download it at this link: If you have iPhone 5 or earlier it is very possible that if you want to add a target with a date after 2037 you will dial them error or put them another year. It's a failure with those particular models that we're looking for as fixed, then if it was retirement savings or they retire before or just puts the part that touches them save until that year. Thanks to everyone for their patience. I offer a theory to those who had the agenda and already expected it. Customer Reviews, including Product Star Ratings help customers to learn more about the product and decide whether it is the right product for them. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness. Learn more how customers reviews work on Amazon About Sophia MacAas y PequeA±o Cerdo Capitalista Hello! soy SofAa MacAas, autor del best-seller A±nPequeA±o Cerdo Capitalista: Finance Personales for Hippies, Yuppies and BohemiosA±TM in Mexico in 2011, adapted for Spain in 2014 and Italy PequeA±o Cerdo Capitalista emerged as a blog in February 2008. I insisted because I realized that my friends had a good financial relationship but they had no place to consult their doubts (and it was not because they were asked to read the newspaper or financial magazines in which I worked); the majority did not save, many with debts of card at the university! And investments or withdrawal were like aliens. At that time, not only my friends, but the whole country was headed for bankruptcy. The blog's publications called attention to an editorial and proposed me to make the first book of PequeA±o Cerdo Capitalista. It was probably a missing guide because the first shoot (5,000 copies) was sold out in 3 weeks, used as a textbook in high school, universities and the investment book at a master level, and to date the series has sold more than half a million copies. Since the PequeA±o Cerdo Capitalista initiative has been growing on different social platforms and networks, but always the same mission: To help make money stop being an obstacle in people's lives and messes, bringing them knowledge and tools of financial education and entrepreneurship. The impact that books, the contents of the page, youtube channel and networks have had on people can be searched on social networks with the hashtag #logrOINKs. I am pleased to also be able to tell you that the impact of Small Capitalist Pig has led me to exhibit in international forums such as the OECD's Financial Education Trend Seminar (2019), The Global Money Week, the Inter-American Development Bank, among others. That's the short one, if you want to keep reading about how I've become a specialist in financial education, I leave you more of my semblanza (it's in third person, because it's the "official" in case you're under change)...
